PORTFOLIO — CODE, VISUALIZATIONS, TECHNICAL WRITING — <https://benmeyersusc.github.io/Portfolio>

SKILLS AND INTERESTS

Technical: C++ | Java | Python | ML Libraries | LLM Harnessing | SQL | Agentic Software Development | OOP | Data Science

Interests: Cognition | Progressive Rock | Reading | Writing | Analog Synthesis | Evolution | Breakfast | Stock Options

EDUCATION

Harvard University – Cambridge, MA
ME in Computational Science and Engineering

August 2026 – May 2028 (expected)
GPA: —

University of Southern California – Los Angeles, CA
BS in Business Administration, Minor in Computer Programming (4.0 GPA)

August 2022 – May 2026
GPA: 3.87 / 4.00

Friends' Central School – Philadelphia, PA
Calculus I & II, Linear Algebra, Biology I & II, Chemistry I & II

August 2018 – May 2022
SAT: 1530, GPA: 4.45 / 4.50

EXPERIENCE

Sage Financial Group – Conshohocken, PA
AI Development Intern

May 2024 – Jan 2025 | May 2026 – Aug 2026

- Sage Intelligence: Azure-hosted LLM platform, flexible and cache-aware chat interfaces, admin-legible natural language LLM tool registry, document-generation tools, generalized checklist + action harnesses (Outlook + Office add-ins), RAG-based research on proprietary and private company data, chat and email LLM systems, advanced token telemetry.

Bridgeforce Data Solutions – Chadds Ford, PA (Hybrid)
AI Development Intern

May 2025 – Aug 2025

- AI Agent Assist: AWS-hosted LLM-based platform utilizing RAG, LLM tools, and sub-agents to settle credit disputes, investigate customer credit with arbitrary SQL queries, and compliantly furnish credit data — all using English prompts.

What Happens Next In Six Minutes – Virtual (Miami based)

June 2023 – Aug 2023

Intern on weekly podcast with tens of thousands of regular listeners covering economics, culture, science, and politics

- Participated in weekly team meetings to generate ideas and finalize content
- Led email marketing campaigns, added tens of thousands of subscribers, used data analytics on Substack + Excel

LEADERSHIP AND INVOLVEMENT

Learning Assistant

Jan 2025 – May 2026

DataViz + UI Design (2026) – Managing Data in C++ (2025-26) – Object-Oriented Programming in Java (2025)

- Hosted office hours, graded assignments, attended and assisted in classes, developed course materials, mentored students

Neural Networks Group

Feb 2025 – May 2026

- Co-created and led operations of reading and coding group within Undergraduate Students in Linguistics club
- Weekly lessons (given by co-creators) on neural networks and deep learning from first principles

Volunteer Research Assistant @ USC ISI

Aug 2025 – Oct 2025

- Contributed to research project proposals, literature reviews, helped construct and refine research plans and code
 - Topics: LLM red-teaming with adversarially fine-tuned LLMs, distillation of online communities into fine-tuned LLMs using GRPO reinforcement learning, benchmark frameworks to test LLM resistance to harmful prompts
-
