SKILLS AND INTERESTS

Technical: C++ | Java | Python | ML Libraries | LLM Harnessing | SQL | Agentic Software Development | OOP | Data Science

Interests: Cognition | Progressive Rock | Reading | Writing | Analog Synthesis | Evolution | Breakfast | Stock Options

EDUCATION

Harvard University – Cambridge, MA

ME in Computational Science and Engineering

Graduation: May 2028

GPA: —

University of Southern California – Los Angeles, CA

BS in Business Administration, Minor in Computer Programming (4.0 GPA)

Graduation: May 2026

GPA: 3.87 / 4.00

Friends' Central School – Philadelphia, PA

Calculus I & II, Linear Algebra, Biology I & II, Chemistry I & II

Graduation: May 2022

SAT: 1530, GPA: 4.45 / 4.50

EXPERIENCE

Sage Financial Group – Conshohocken, PA

AI Development Intern

May 2024 – Jan 2025 | May 2026 – Aug 2026

- Sage Intelligence: Azure-hosted LLM platform, flexible and cache-aware chat interfaces, admin-legible natural language LLM tool registry, document-generation tools, generalized checklist + action harnesses (Outlook + Office add-ins), RAG-based research on proprietary and private company data, chat and email LLM systems, advanced token telemetry.

Bridgeforce Data Solutions – Chadds Ford, PA (Hybrid)

AI Development Intern

May 2025 – Aug 2025

- Developed code and architecture for AI Agent Assist application using AWS Bedrock, Lambda, CDK, Redshift
- LLM-based app utilizing RAG, agentic tools, sub-agents
- Used to settle disputes, investigate consumer credit, and compliantly furnish credit data — all using English prompts
- Communicated technical details accurately but accessibly to supervisors and clients

What Happens Next In Six Minutes – Virtual (Miami based)

Intern on weekly podcast with tens of thousands of regular listeners covering economics, culture, science, and politics

June 2023 – Aug 2023

- Participated in weekly team meetings to generate ideas and finalize content
- Led email marketing campaigns, added tens of thousands of subscribers, used data analytics on Substack + Excel

LEADERSHIP AND INVOLVEMENT

Learning Assistant

DataViz + UI Design (2026) – Managing Data in C++ (2025-26) – Object-Oriented Programming in Java (2025)

Jan 2025 – Present

- Host office hours, grade assignments, attend and assist in classes, develop course materials, mentor students

Neural Networks Group

- Co-created and lead operations of reading and coding group within Undergraduate Students in Linguistics club
- Weekly lessons (given by co-creators) on neural networks and deep learning from first principles

Feb 2025 – Present

Volunteer Research Assistant @ USC ISI

- Contribute to research project proposals, literature reviews, helped construct and refine research plans & code
- Topics: LLM red-teaming with adversarially fine-tuned LLMs, distillation of online communities into fine-tuned LLMs using GRPO reinforcement learning, benchmark frameworks to test LLM resistance to harmful prompts

Aug 2025 – Oct 2025

PORTFOLIO — CODE, VISUALIZATIONS, TECHNICAL WRITING
